LOBA On Top!

LOBA loves beautiful floors. As a family-run company with a tradition spanning a century, we offer you modern products for the creation, finishing and maintenance of surfaces made of wood and cork, as well as resilient and mineral floorings. LOBA attaches the highest value to user-friendly, safe and sustainable products. Out of responsibility towards people and nature, we have long focused on the development of environmentally compatible, solvent-free systems – for a living environment that makes us all feel good.

You can find all of LOBA's milestones since 1922 here.

ORANGE ZONE

The inaugural issue of the LOBA customer magazine, ORANGE ZONE, will be published in April. Informative and practical, this German-English bilingual magazine provides added value in the areas of news, technology, and service.

2023

100 YEARS LOBA

“Creating the future together” – LOBA celebrates 100 years of technical excellence and innovation, passion, and outstanding service.

LOBA On Top! Produced in Germany – made for the world.

2022

NEW GROUND

Cool, individual, timeless – minimal industrial style through an exposed concrete look: Market launch of the Factory Line, LOBA's first water-based finish system for leveling compounds.

INVISIBLE SURFACE PROTECTION

Market launch of the invisible water-based surface protection 2K InvisibleProtect. Thanks to its innovative technology, it achieves a look and feel that appears even more natural than raw wood.

INVESTMENT IN THE FUTURE

The new logistics and training center in Ditzingen, Germany is opened.

2015

PARTNERSHIP WITH WAKOL

2006

FOUNDING

On April 13, 1922, Wilhelm Hornung and Dr. Max Fischer found Vereinigte Wachswarenfabriken AG Hornung und Dr. Fischer in Ditzingen, near Stuttgart, Germany.

1995

INNOVATION

With the introduction of the legendary WS 2K 95, the world's first water-based 2K hardwood floor finish system, LOBA sets a new standard in the industry.

1922

The product range includes floor stains, floor cleaners, floor polish, ski wax, shoe polish, leather grease, and household candles. Already in September 1922, 20 candle machines produce 85 tons of household candles.

MILESTONES

Excellent! Sustainability at LOBA

When it comes to sustainability, LOBA solutions are the perfect companion for every step of the process – not just for new-builds, but also and especially in refurbishment projects. At the company level as well, we have set ourselves some lofty goals.

REFURBISH INSTEAD OF USING NEW

Convince your customers to give hardwood flooring a second chance! Old flooring, when restored to a high standard, is often a beautiful alternative to new flooring. It also tells a story, and not infrequently turns out to be the more economical solution. By far, however, it's the more sustainable option: Renovating a hardwood floor conserves resources and is environmentally friendly. It also avoids waste and produces less CO₂ than a complete replacement.

PRODUCTS INSPIRED BY SUSTAINABILITY

As part of our traditional role as a pioneer in the development of water-based 2K finishes, sustainable formulas can be found throughout the range of LOBA finishing products – out of responsibility towards our customers, end users and employees. Numerous labels, such as the coveted GEV-EMICODE®, the French “Emissions dans l'air intérieur” seal, or the Scandinavian “M1” mark, bear testimony to our commitment that extends far beyond national borders.

SUSTAINABLE AND FAIR: OUR DELIVERY PROCESSES

To make sure our suppliers meet our rigorous standards, they agree to our code of conduct, which requires them to understand, follow, and champion our values and principles in environmental protection, social responsibility, and governance. As part of this commitment, we have also dedicated ourselves the United Nations’ Sustainable Development Goals.

OUR MISSION

For us at LOBA Wakol North America, our effort focuses on consistently providing a safe, healthy atmosphere for our customers and our employees. We are dedicated to identifying the best processes, products, and packaging, which reduce our carbon footprint and creates a positive environmental impact for all of us now and for future generations. We are a proud member of the U.S. Green Building Council and Green Business Bureau. We will continue to strive each day for a better tomorrow.

LOBA GmbH & Co. KG is ISO-certified

CONNECTED
SYSTEMS

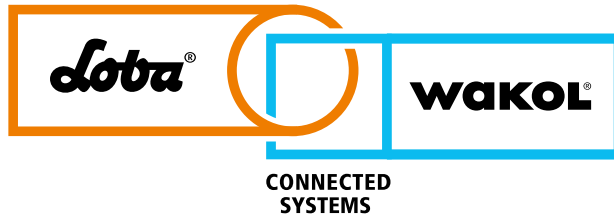

A STRONG CONNECTION FOR YOUR SUCCESS

Connected Systems
Perfect results
for your projects

Your benefits with LOBA Wakol Connected Systems

- Perfectly coordinated products
- Maximum safety during application
- Successful handling in a tried-and-tested, guaranteed system
- Exclusion of interactions between oils/ finishes and adhesives
- Avoidance of dark run-ins at short end joints
- Avoidance of dark joints, since there is no softening of the finish layer
- Long-term quality assurance through regular tests in the event of formula adjustments

We care about your success!

Connected Systems

perfect results
for your projects

Your benefits with LOBA and Wakol Connected Systems:

- Outstanding compatible products
- Powerful security for your installation
- No chemical reaction between finish and adhesive
- No softening of the finish, prevents dark joints
- Successful application guaranteed in a well proven system

We care about your success!

MORE INFORMATION, MORE ORIENTATION

Reach your goal even faster –
with the new LOBA labels.

The key facts at a glance

The new, user-friendly LOBA label design makes it even easier for you to find the right product.

- Clear presentation of product features
- Background images show the range of use
- Color coding system for better distinction of the product types

THE EASY WAY TO THE RIGHT PRODUCT

The image shows a product label for LOBA 2K Duo. The label is divided into several sections:

- Product set-up:** A list on the right side of the label: 1 FILLER, 2 SEALER, 3 FINISH.
- Product name:** '2K Duo' in large blue letters.
- Gloss level:** 'SEMI-GLOSS | SATIN | EXTRA MATTE' with arrows indicating the selected 'SATIN' level.
- Special feature:** 'IMPROVED SLIP RESISTANCE' with a corresponding icon.
- Mass/hardener assignment:** '2 COMPONENTS' with 'A1 FINISH' and 'B1 HARDENER' in separate boxes.
- Stress level:** A scale from 1 to 10, with '1' selected for 'Residential' use.
- Color coding system:** The label has a blue header and an orange body, corresponding to the 'Finish' and 'Sealer' categories in the color coding system below.
- Range of use:** A QR code and a 'shake well.' icon.
- Scan for more info:** The QR code.
- Certifications:** Various logos at the bottom, including ECT, U, and others.

THE RANGE OF USE

The range of use is illustrated by eight images:

- Indoor | Wood | Preparation
- Indoor | Wood | Finish systems
- Indoor | Wood | Sport
- Indoor | Wood | Oil/wax systems
- Indoor | Leveling compounds
- Indoor | Elastic
- Indoor | Elastic | Sport
- Outdoor

THE NEW COLOR CODING SYSTEM

The color coding system consists of five categories, each represented by a colored bar:

- Preparation (Brown)
- Sealer (Light Blue)
- Finish (Dark Blue)
- Oil/wax (Green)
- Cleaning & care (Teal)

LOBA loves hardwood floors

With LOBA premium systems, you can finish and protect hardwood floors in first-class quality. Our finishing products offer ideal protection against dirt, wear, chemicals, and moisture. They are perfect for finishing hardwood and cork floors. Solutions from LOBA are not only extremely robust and durable, they also offer an attractive appearance that accentuates the hardwood floor's natural charm.

Preparation is everything

With LOBA water-based joint fillers, even large joints in hardwood flooring can be filled beautifully. Small imperfections can be touched up, resulting in the perfect color match even on exotic wood. Regardless of whether the surface of the hardwood floor is treated with impregnating oil, hardwax oil or finish, with LOBA fillers for your floor covering, you are ready for any challenge.

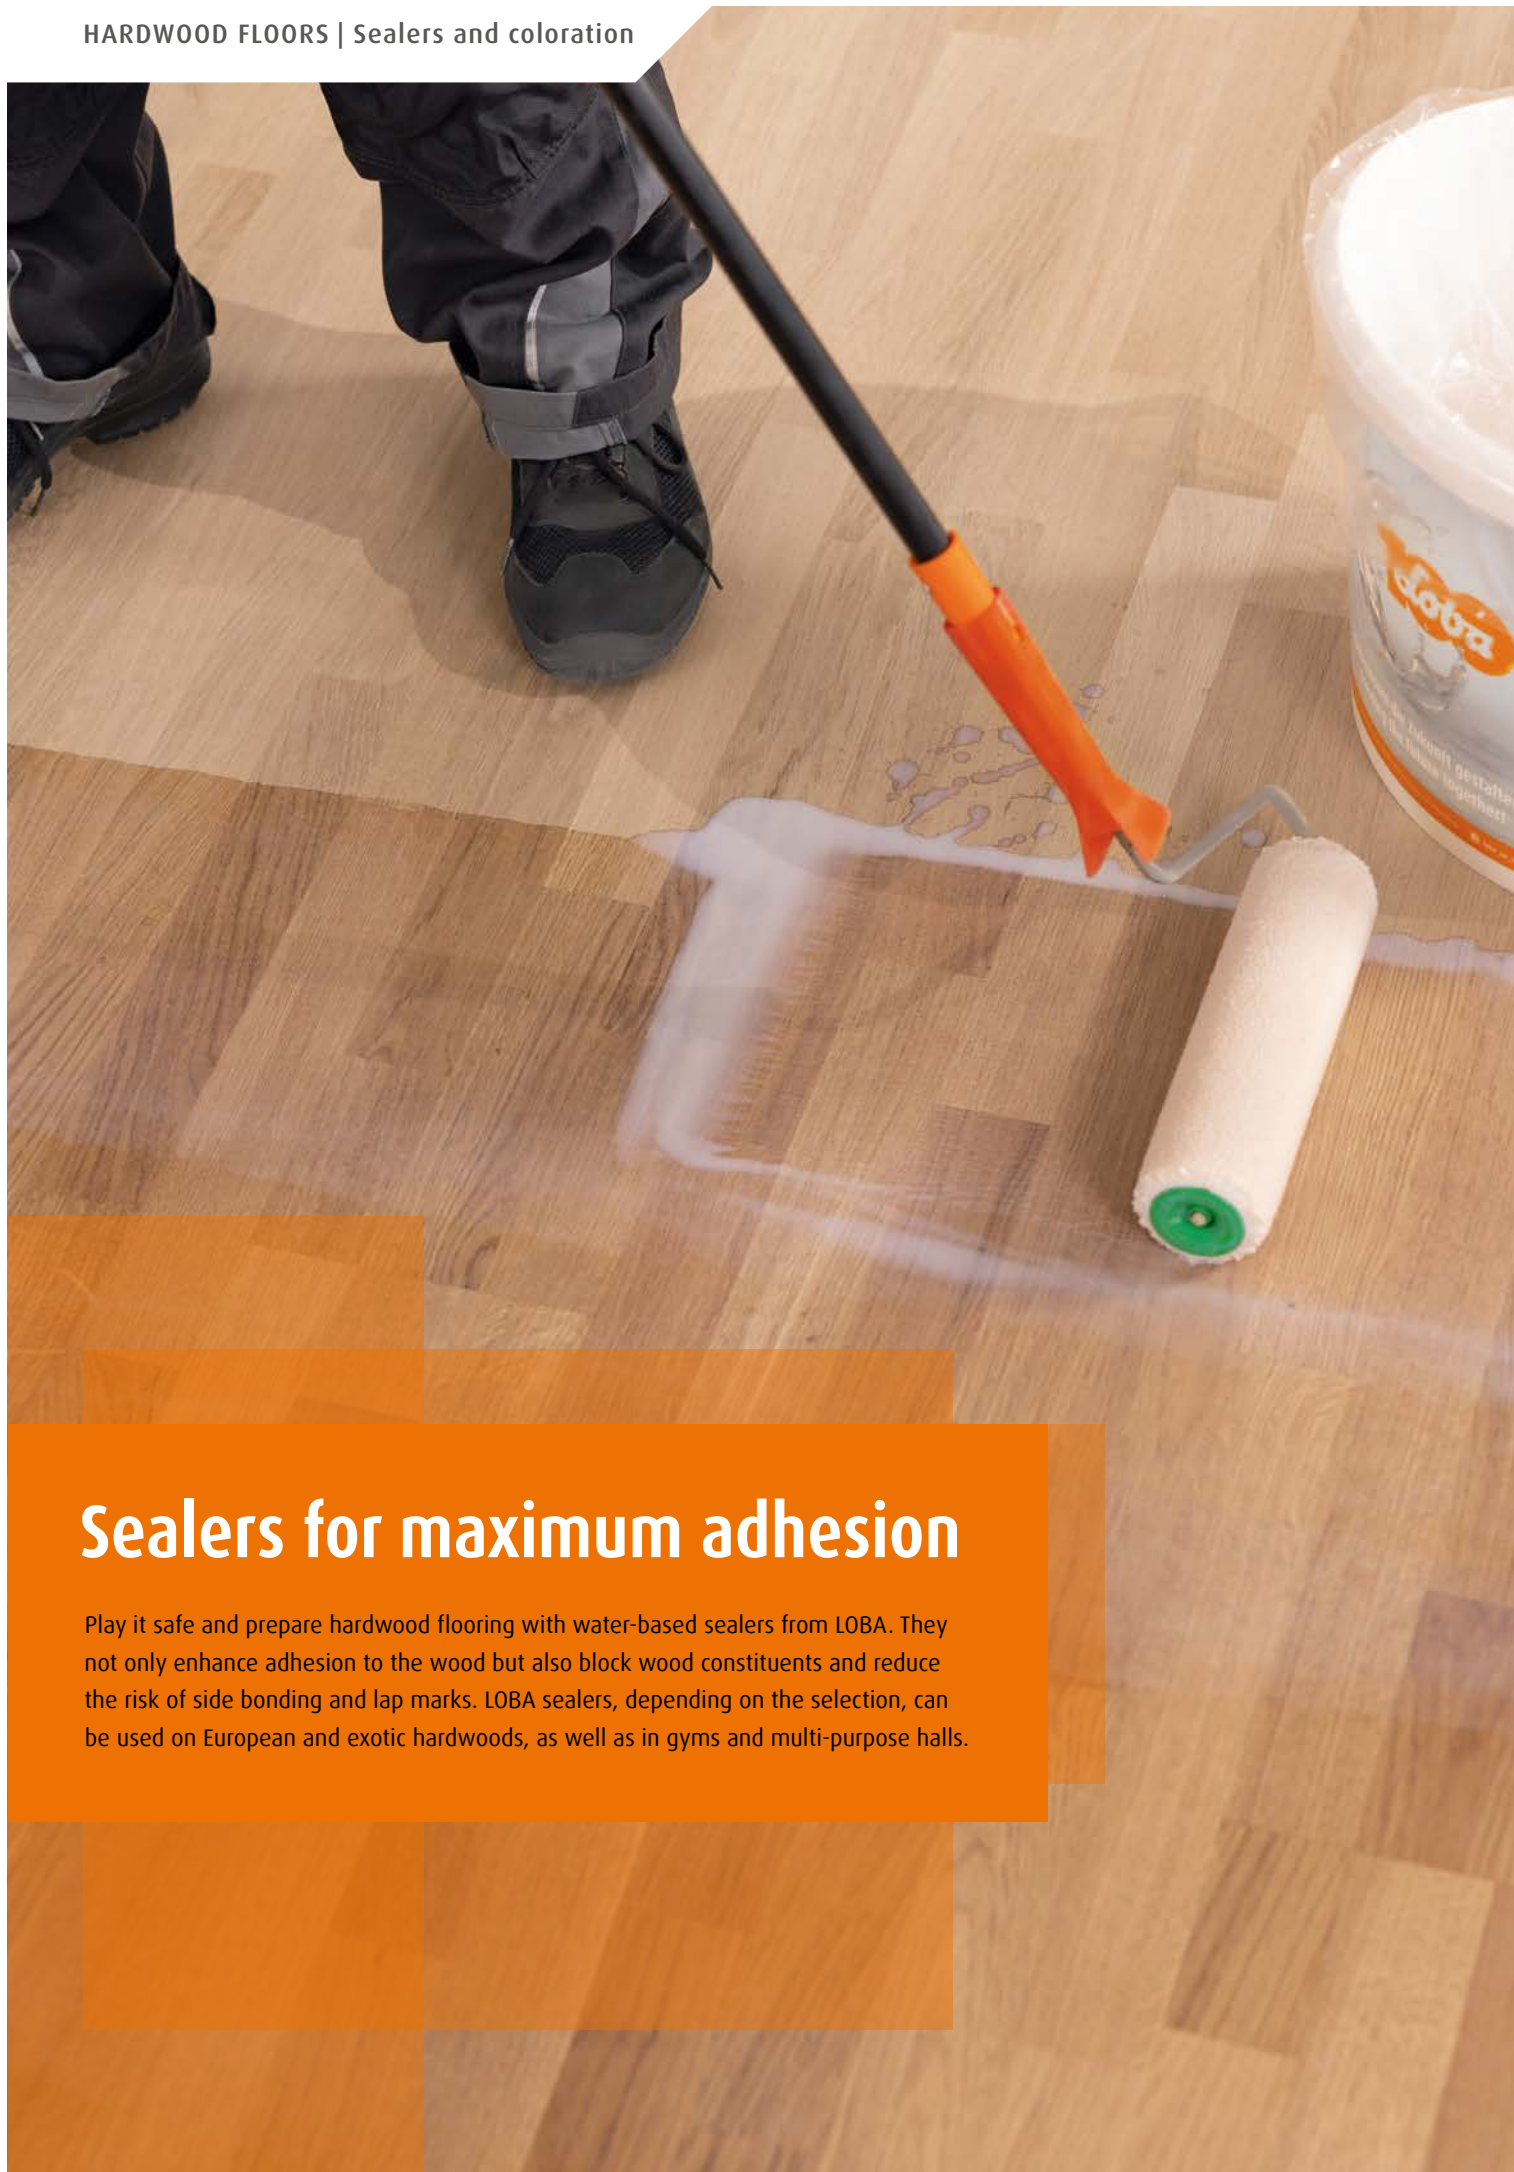

EasyFill

Fast drying water-based binder designed to be mixed with fine wood dust to create a customized wood filler.

- Excellent coverage
- Fast drying
- No offensive odor
- Easy application
- Suitable for all types of wood

Sealers for maximum adhesion

Play it safe and prepare hardwood flooring with water-based sealers from LOBA. They not only enhance adhesion to the wood but also block wood constituents and reduce the risk of side bonding and lap marks. LOBA sealers, depending on the selection, can be used on European and exotic hardwoods, as well as in gyms and multi-purpose halls.

EasyPrime

Polyurethane-acrylate water-based sealer for hardwood flooring.

- No lap marks
- Reduces the side bonding and whiteline-effect tendency of water-based finishes
- Can be finished with all LOBA water-based finishes
- Suitable for almost all wood species
- Application on LOBA Stain results in a richer coloration
- Excellent coverage rate

DeckDegrayer

Wood

Special cleaner for wooden surfaces in outdoor areas.

- Ideal degreasing preparation prior to surface treatment
- Easy and safe application
- Can be used on horizontal and vertical surfaces and outdoor furniture, does not drip
- No sanding necessary
- Applicable for all wood species

ITEM-#			
LO-FI-306	2.5l	6	144

DeckCleaner

Wood | WPC

Maintenance cleaner for outdoor areas.

- Can be used on horizontal and vertical surfaces and outdoor furniture, does not drip
- Very productive
- Suitable for oiled or finished wood and WPC

ITEM-#			
LO-FI-305	2.5l	6	144

DeckRefresh

Wood

Water-based wipe care for outdoor areas.

- Thorough, gentle wipe care
- Gives the surface a silky sheen
- Easy and safe application
- No remover necessary due to a self-emulsifying formula
- Suitable for oiled and finished wood surfaces in outdoor areas

ITEM-#			
LO-FI-304	2.5l	6	144

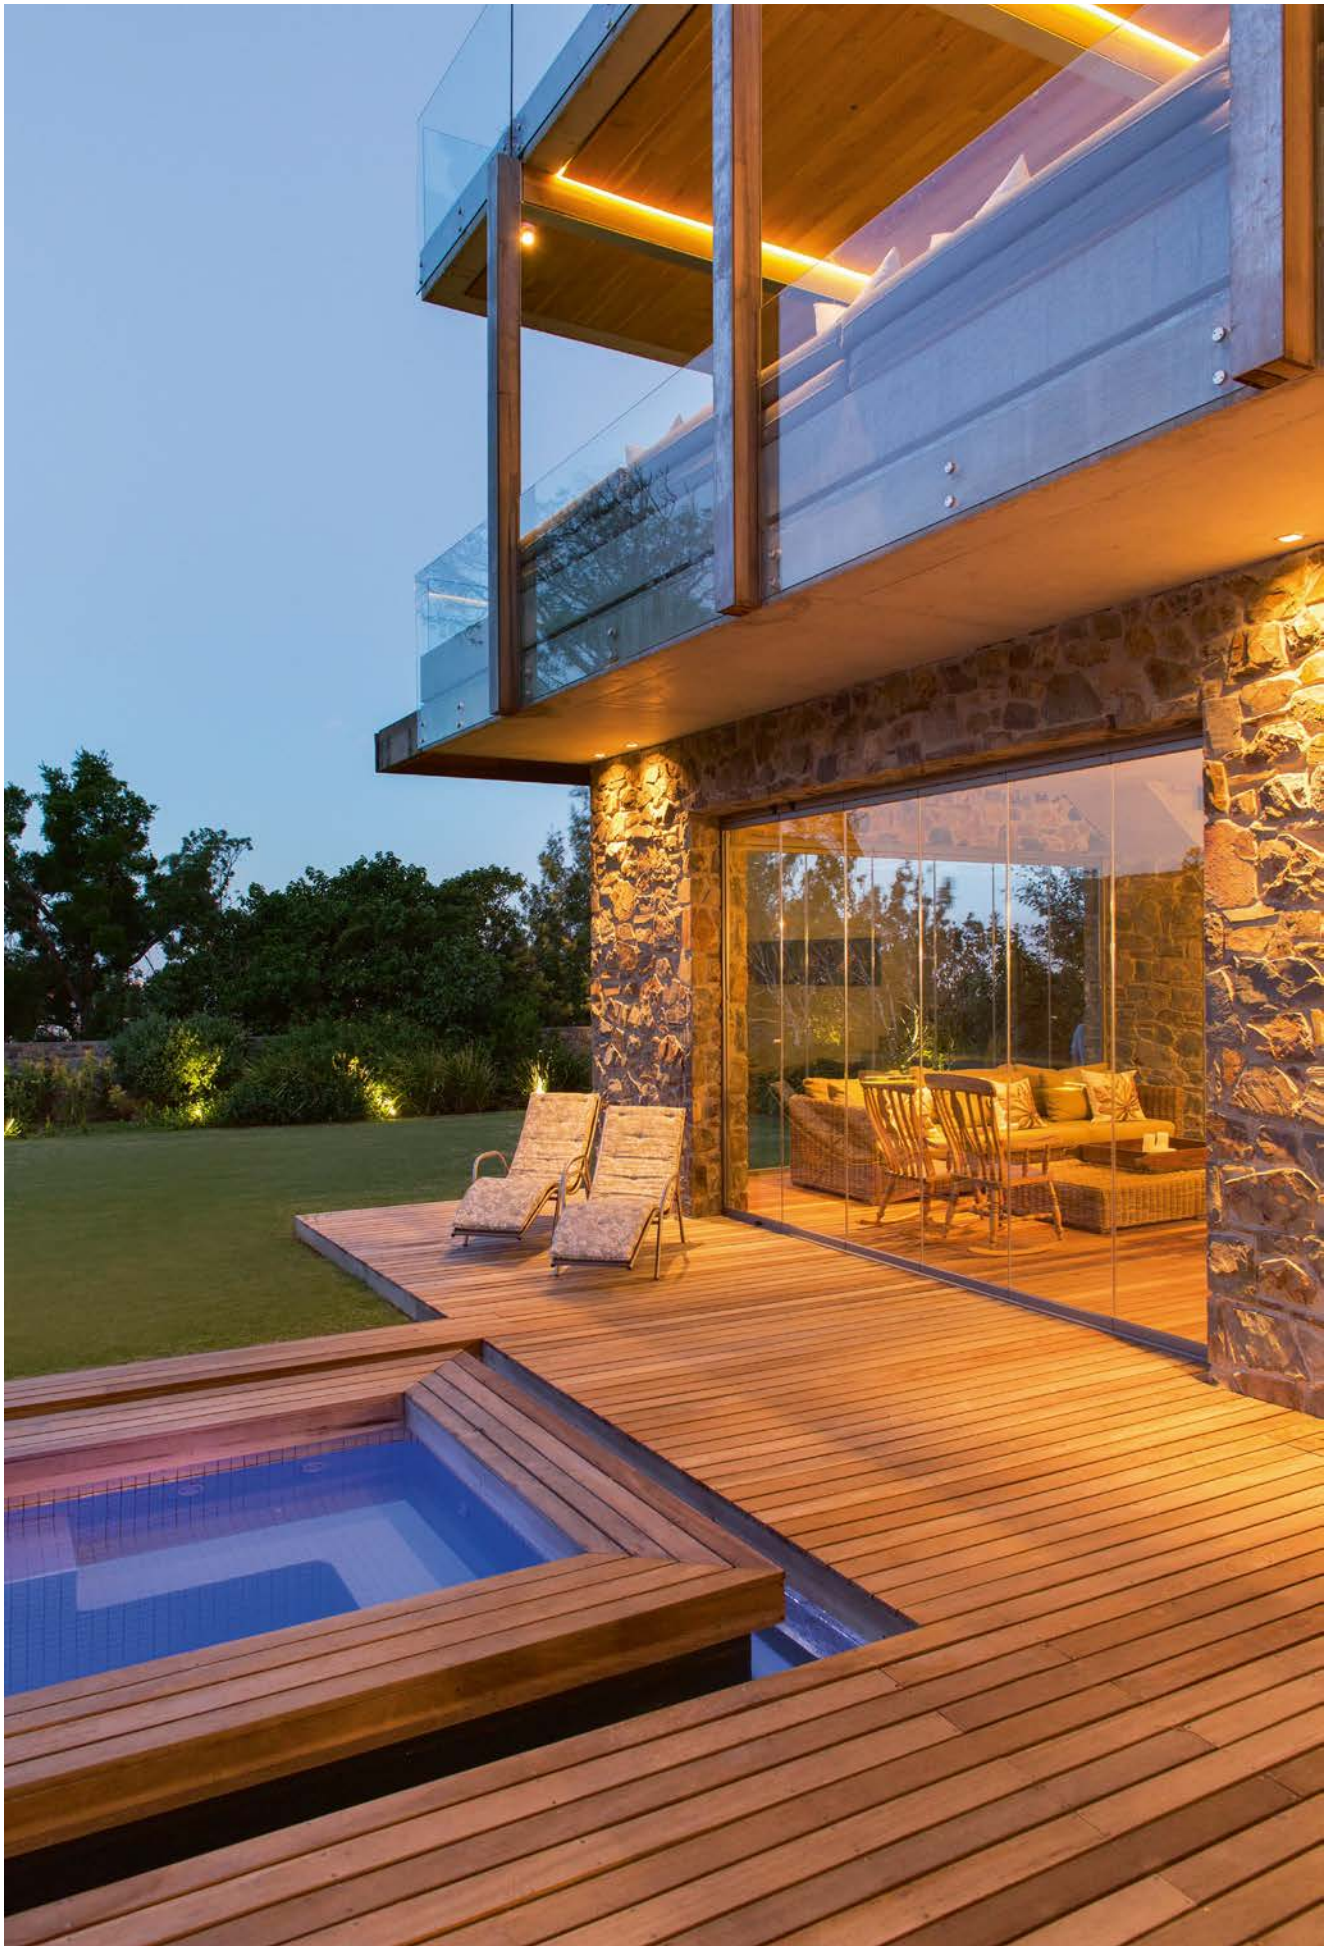

WPC Refresh

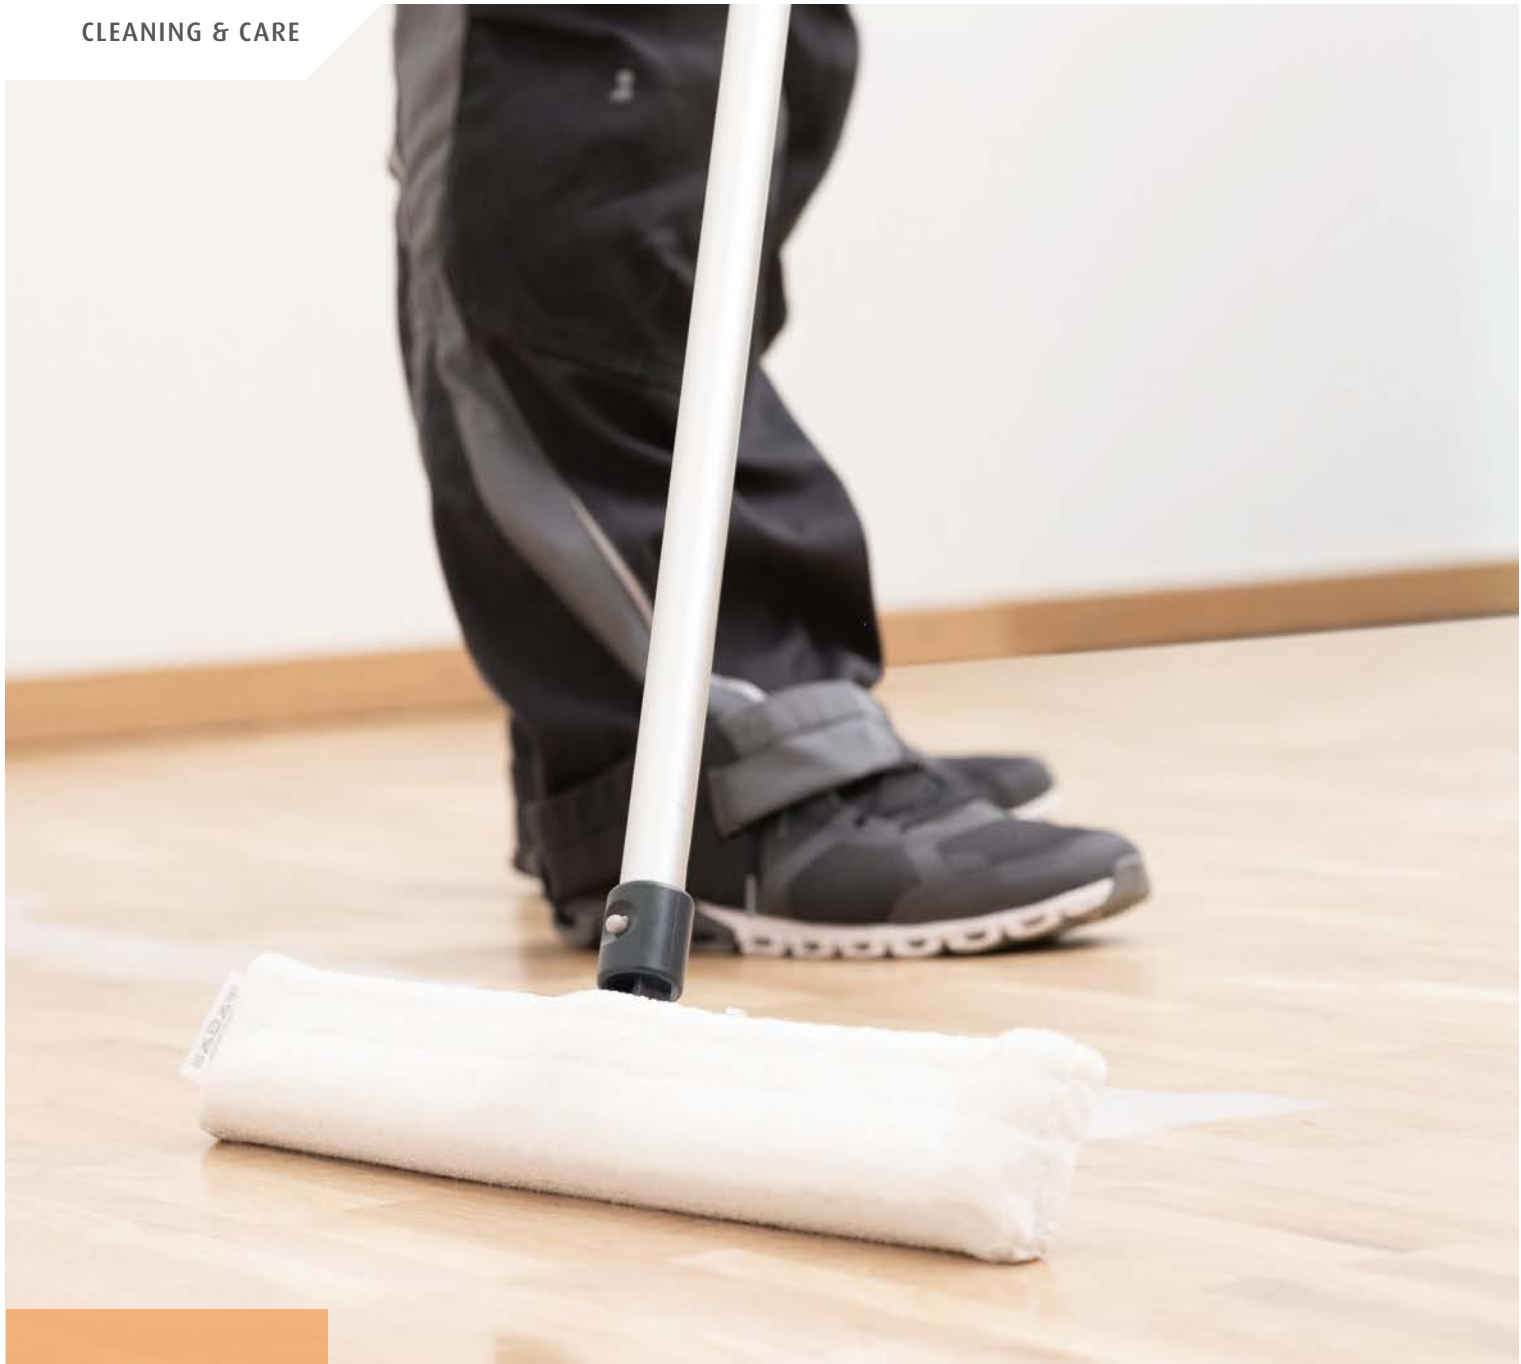

Wood | WPC

Maintenance oil based on solvents.

- Optical upgrading for WPC and oiled wood surfaces
- Brings back the silky matte look
- Easy and safe application
- Suitable for WPC and oiled wood surfaces

ITEM-#			
LO-FI-307	1 qt.	6	672

Gently protect beautiful floors

LOBA thinks beyond the finishing of valuable flooring: In order to optimally protect the surface and maintain it for as long as possible, we offer top-quality care and cleaning products for professional users. With our wide range of products, you can maintain long-term value and a perfect appearance, both indoors and outdoors. Caring and cleaning with LOBA: For those who think long-term!

Remover

Wood | Cork | Linoleum | PVC | Tile

Low-foaming, deep cleaning concentrate for heavily soiled floors and to break down and remove layers of old floor care products.

- Strong cleaning ability
- Does not leave streaks or residues
- Breaks down most care and maintenance products
- pH-neutral water-based formula

ITEM-#			
LO-MA-009	1 qt.	12	576

FloorCare

Water-based floor care product.

- Provides a protective layer
- Can be removed without sanding
- VOC compliant
- Excellent adhesion
- Easy to apply

ITEM-#	VARIANT			
LO-MA-002	satin	1 qt.	12	576
LO-MA-003	semi-gloss	1 qt.	12	576

ParkettSoap R2U

ParkettSoap R2U is a ready to use cleaning solution for the deep cleaning of wood surfaces which are treated with oxidizing oils.

- Ready to use, no mixing required
- Removes grey and faded layers after exposure to sunlight
- Great for indoor and outdoor use
- Water-based yet powerful formula to remove residue and dirt

ITEM-#			
LO-MA-010	1 gal.	4	200

ParkettOil

Maintenance oil based on solvents.

Wood

- Retains the matte finish of oiled floors
- No self-polishing
- Suitable as spot treatment
- Removes wear marks

ITEM-#			
LO-MA-007	1 qt.	6	480

NatureOil

Water-based maintenance oil.

Wood

- Ready to use, solvent-free and soap-free
- Reliably retains the matte finish of oiled hardwood floors
- Ideal for treating the whole floor or touching up smaller areas
- Simple application with cloth or sponge

ITEM-#

Workshops and trainings

Through numerous trainings conducted at our company headquarters, or in your region, we will enable you to make the very best use of our products. With LOBA, you have a reliable partner by your side who will help you inspire your customers and boost your success as a flooring specialist.

PLEASE FIND OUR
TRAINING DATES HERE.
BOOK YOUR SEMINAR
TODAY!

Our stress levels at a glance

The new stress levels defined by LOBA help you find the perfect finish for the types of stress your project will be exposed to.

Our teams in the Application Technology and Research & Development departments continuously test LOBA products in order to ensure consistent quality and develop our products further on the basis of new requirements defined by our customers as well as laws and regulations. The tests are extremely comprehensive and examine numerous properties.

Four test categories were chosen that most strongly represent the overall resistance of the finishes:

- **Single scratch**
- **Abrasion**
- **Wear**
- **Chemical resistance**

1K and 2K finishes are evaluated on the basis of laboratory values in the respective categories on a scale of 1 – 10, and a mean value is also calculated from this.

	2K Duo
Single scratch	9
Abrasion	10
Wear	9
Chemical resistance	9
Mean value	9.3 -> 9

Calculation example using 2K Duo

As shown on the product

Explanation of symbols

	EMI CODE® EC1 PLUS and EC1R PLUS: Very low emissions		Suitable for children's toys according to DIN EN 71-3		Connected Systems: System guarantee for LOBA sealing products and oils for Wakol adhesive and levelling compounds		Non-slip according to DIN 51097 evaluation group A
	EMICODE® EC1 and EC1R: Very low emissions		Emissions-tested construction product, Class M1		Emission-tested construction product according to French VOC regulation		Non-slip according to DIN 51097 evaluation group B
